Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

2023	1,500-2,000	42
2024	4,000-6,000	420
2025	2,000-3,000	35

■ **15** deaths reported so far this year.
The economic impact is yet to be assessed

Source: IPE Global & media reports

The ongoing flood situation in Kerala has so far claimed around 15 lives and affected several livelihoods. According to media reports, around 7,674 people have been temporarily resettled in 316 camps. The state has already sought ₹110 crore emergency relief from the Centre to offset farm sector losses. As many as 36,829 farmers having about 3,264 hectares of agricultural land were affected by heavy rain and floods so far.

Amid this, a study by development consultancy firm IPE Global indicates that the state's flood frequency has shifted from episodic, or once every three to five years before 2018, to near-annual, with a five-fold increase within a single decade. It adds that districts like Wayanad and Idukki have already crossed into extreme compound risk territory. It also warns that such events will occur frequently going ahead. Here is a detailed look at the impact of floods on Kerala's economy and life in the last five years, and its reasons.

2018 floods: The worst in recent years

From a major flood once every 3-5 years before 2018, Kerala now faces monsoon wrath every season

According to Abinash Mohanty, global sector head- climate change & sustainability, IPE Global, a multi-hazard vulnerability assessment for Kerala reveals a statistically significant shift in the return periods of hydrometeorological hazards that demands immediate policy intervention that can climate-proof lives, livelihoods and infrastructures.

Looking into this assessment, Kerala has moved from experiencing a major flood once every three to five years before 2018 to experiencing one every single monsoon season— a five-fold increase in frequency within a decade.

"The 2024 Wayanad catastrophe — 420 lives lost in six hours of rainfall that should statistically occur once in 75 to 200 years — is no longer an outlier. Under La Niña conditions and accelerating monsoon intensification, we project compound events will strike two to three times more frequently by 2035. Kerala does not need more rescue boats after the flood arrives. It needs a system that activates departments before the rain falls. Every life lost, every livelihood washed away, and every road and bridge that collapses is proof that we are still building and governing for yesterday's climate, not tomorrow's," he added.

Phuket flight turbulence: Both A-I pilots taken off roster amid drug scrutiny

PRESS TRUST OF INDIA
New Delhi, 9 August

The pilot-in-command of an Air India (A-I) aircraft that experienced a sudden loss of altitude during a Phuket-Delhi flight has undergone confirmatory testing after an initial psychoactive substance screening indicated that the result requires further analysis, the Civil Aviation Ministry said on Sunday. Both pilots on duty during the incident have been taken off the roster until the investigation into the incident is completed.

The Airbus A320, operating flight AI2379 from Phuket to Delhi on August 4, lost about 300 feet of altitude during cruise before stabilising and landing safely in Delhi. A few passengers and cabin crew members reported injuries during the incident. The aircraft was carrying 137 passengers and eight crew members.

Both flight crew members underwent psychoactive substance screening following the incident, as required under standard operating procedures. The pilot-in-command's sample was sent to a designated laboratory for confirmatory analysis, with the final report awaited, the ministry stated.

The incident has been classified as a serious incident and is being investigated by the Aircraft Accident Investigation Bureau. Pending completion of the investigation and testing process, the Directorate General of Civil Aviation has taken both flight crew members off the roster.

DGCA reported 889 serious tech defects in flights last year

The Directorate General of Civil Aviation (DGCA) recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data.

The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. PTI

Notes :

1. The above Consolidated and Standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Shaily Engineering Plastics Limited ('Parent Company') in their respective meetings held on August 08, 2026. The Statutory auditors of the Parent Company have carried out limited review of the unaudited Consolidated and Standalone financial results for the quarter ended June 30, 2026. The Statutory auditors have expressed an unmodified conclusion.
2. The above Consolidated and Standalone financial results of the Parent Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 (the 'Act') read with the relevant rules thereunder and in terms of Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. The figures of quarter ended March 31, 2026 are the balancing figures between audited figures in respect of full financial year and the limited reviewed published year to date figures up to third quarter of previous financial year.
4. During the quarter ended June 30, 2026, the Parent Company has alloted 40,155 equity shares of ₹ 2/- each to eligible employees upon exercise of Option under the Parent Company's ESOP Plan 2019. Pursuant to this allotment, the paid up equity share capital of the Parent Company has increased from 45,955,093 equity shares of ₹ 2/- each to 45,995,248 equity shares of ₹ 2/- each.
5. In accordance with 'Ind AS 108 - Operating Segments', the Group operates in one business segment i.e. 'Manufacturing of customised components of plastic and other materials'.
6. The consolidated financial results of the Parent Company include information of wholly owned subsidiaries Shaily Innovations Ltd (formerly known as Shaily (UK) Ltd) and Shaily Innovations FZCO for quarter ended June 30, 2026.
7. The Group has presented the financial results in ₹ crores instead of ₹ lakhs from the current quarter. Comparative figures for previous periods have been presented in ₹ crores for consistency.
8. The above is an extract of the detailed format of Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Company website i.e. **www.shaily.com** and the Stock Exchange website i.e. **www.bseindia.com** and **www.nseindia.com**.

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

Notes :

1. The above Consolidated and Standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Shaily Engineering Plastics Limited ('Parent Company') in their respective meetings held on August 08, 2026. The Statutory auditors of the Parent Company have carried out limited review of the unaudited Consolidated and Standalone financial results for the quarter ended June 30, 2026. The Statutory auditors have expressed an unmodified conclusion.
2. The above Consolidated and Standalone financial results of the Parent Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 (the 'Act') read with the relevant rules thereunder and in terms of Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. The figures of quarter ended March 31, 2026 are the balancing figures between audited figures in respect of full financial year and the limited reviewed published year to date figures up to third quarter of previous financial year.
4. During the quarter ended June 30, 2026, the Parent Company has alloted 40,155 equity shares of ₹ 2/- each to eligible employees upon exercise of Option under the Parent Company's ESOP Plan 2019. Pursuant to this allotment, the paid up equity share capital of the Parent Company has increased from 45,955,093 equity shares of ₹ 2/- each to 45,995,248 equity shares of ₹ 2/- each.
5. In accordance with 'Ind AS 108 - Operating Segments', the Group operates in one business segment i.e. 'Manufacturing of customised components of plastic and other materials'.
6. The consolidated financial results of the Parent Company include information of wholly owned subsidiaries Shaily Innovations Ltd (formerly known as Shaily (UK) Ltd) and Shaily Innovations FZCO for quarter ended June 30, 2026.
7. The Group has presented the financial results in ₹ crores instead of ₹ lakhs from the current quarter. Comparative figures for previous periods have been presented in ₹ crores for consistency.
8. The above is an extract of the detailed format of Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Company website i.e. **www.shaily.com** and the Stock Exchange website i.e. **www.bseindia.com** and **www.nseindia.com**.

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

Kerala's flood woes continue

₹20,000 cr
Approximate financial loss suffered by the state between 2021 and 2025

620
Reported number of deaths between 2021 and 2026

Year-wise impact

	Economic impact (₹ cr)	Deaths
2021	3,500-5,000	80
2022	2,000-3,000	29
2023	1,500-2,000	42
2024	4,000-6,000	420
2025	2,000-3,000	35

■ **15** deaths reported so far this year.
The economic impact is yet to be assessed

Source: IPE Global & media reports

The ongoing flood situation in Kerala has so far claimed around 15 lives and affected several livelihoods. According to media reports, around 7,674 people have been temporarily resettled in 316 camps. The state has already sought ₹110 crore emergency relief from the Centre to offset farm sector losses. As many as 36,829 farmers having about 3,264 hectares of agricultural land were affected by heavy rain and floods so far.

Amid this, a study by development consultancy firm IPE Global indicates that the state's flood frequency has shifted from episodic, or once every three to five years before 2018, to near-annual, with a five-fold increase within a single decade. It adds that districts like Wayanad and Idukki have already crossed into extreme compound risk territory. It also warns that such events will occur frequently going ahead. Here is a detailed look at the impact of floods on Kerala's economy and life in the last five years, and its reasons.

2018 floods: The worst in recent years

From a major flood once every 3-5 years before 2018, Kerala now faces monsoon wrath every season

According to Abinash Mohanty, global sector head- climate change & sustainability, IPE Global, a multi-hazard vulnerability assessment for Kerala reveals a statistically significant shift in the return periods of hydrometeorological hazards that demands immediate policy intervention that can climate-proof lives, livelihoods and infrastructures.

Looking into this assessment, Kerala has moved from experiencing a major flood once every three to five years before 2018 to experiencing one every single monsoon season— a five-fold increase in frequency within a decade.

"The 2024 Wayanad catastrophe — 420 lives lost in six hours of rainfall that should statistically occur once in 75 to 200 years — is no longer an outlier. Under La Niña conditions and accelerating monsoon intensification, we project compound events will strike two to three times more frequently by 2035. Kerala does not need more rescue boats after the flood arrives. It needs a system that activates departments before the rain falls. Every life lost, every livelihood washed away, and every road and bridge that collapses is proof that we are still building and governing for yesterday's climate, not tomorrow's," he added.

Phuket flight turbulence: Both A-I pilots taken off roster amid drug scrutiny

PRESS TRUST OF INDIA
New Delhi, 9 August

The pilot-in-command of an Air India (A-I) aircraft that experienced a sudden loss of altitude during a Phuket-Delhi flight has undergone confirmatory testing after an initial psychoactive substance screening indicated that the result requires further analysis, the Civil Aviation Ministry said on Sunday. Both pilots on duty during the incident have been taken off the roster until the investigation into the incident is completed.

The Airbus A320, operating flight AI2379 from Phuket to Delhi on August 4, lost about 300 feet of altitude during cruise before stabilising and landing safely in Delhi. A few passengers and cabin crew members reported injuries during the incident. The aircraft was carrying 137 passengers and eight crew members.

Both flight crew members underwent psychoactive substance screening following the incident, as required under standard operating procedures. The pilot-in-command's sample was sent to a designated laboratory for confirmatory analysis, with the final report awaited, the ministry stated.

The incident has been classified as a serious incident and is being investigated by the Aircraft Accident Investigation Bureau. Pending completion of the investigation and testing process, the Directorate General of Civil Aviation has taken both flight crew members off the roster.

DGCA reported 889 serious tech defects in flights last year

The Directorate General of Civil Aviation (DGCA) recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data.

The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. PTI

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

2025	2,000-3,000	35

■ **15** deaths reported so far this year.
The economic impact is yet to be assessed

Source: IPE Global & media reports

The ongoing flood situation in Kerala has so far claimed around 15 lives and affected several livelihoods. According to media reports, around 7,674 people have been temporarily resettled in 316 camps. The state has already sought ₹110 crore emergency relief from the Centre to offset farm sector losses. As many as 36,829 farmers having about 3,264 hectares of agricultural land were affected by heavy rain and floods so far.

Amid this, a study by development consultancy firm IPE Global indicates that the state's flood frequency has shifted from episodic, or once every three to five years before 2018, to near-annual, with a five-fold increase within a single decade. It adds that districts like Wayanad and Idukki have already crossed into extreme compound risk territory. It also warns that such events will occur frequently going ahead. Here is a detailed look at the impact of floods on Kerala's economy and life in the last five years, and its reasons.

2018 floods: The worst in recent years

From a major flood once every 3-5 years before 2018, Kerala now faces monsoon wrath every season

According to Abinash Mohanty, global sector head- climate change & sustainability, IPE Global, a multi-hazard vulnerability assessment for Kerala reveals a statistically significant shift in the return periods of hydrometeorological hazards that demands immediate policy intervention that can climate-proof lives, livelihoods and infrastructures.

Looking into this assessment, Kerala has moved from experiencing a major flood once every three to five years before 2018 to experiencing one every single monsoon season— a five-fold increase in frequency within a decade.

"The 2024 Wayanad catastrophe — 420 lives lost in six hours of rainfall that should statistically occur once in 75 to 200 years — is

In 2018
₹40,000 cr
Estimated financial loss

483
Reported deaths

no longer an outlier. Under La Niña conditions and accelerating monsoon intensification, we project compound events will strike two to three times more frequently by 2035. Kerala does not need more rescue boats after the flood arrives. It needs a system that activates departments before the rain falls. Every life lost, every livelihood washed away, and every road and bridge that collapses is proof that we are still building and governing for yesterday's climate, not tomorrow's," he added.

Phuket flight turbulence: Both A-I pilots taken off roster amid drug scrutiny

PRESS TRUST OF INDIA
New Delhi, 9 August

The pilot-in-command of an Air India (A-I) aircraft that experienced a sudden loss of altitude during a Phuket-Delhi flight has undergone confirmatory testing after an initial psychoactive substance screening indicated that the result requires further analysis, the Civil Aviation Ministry said on Sunday. Both pilots on duty during the incident have been taken off the roster until the investigation into the incident is completed.

The Airbus A320, operating flight AI2379 from Phuket to Delhi on August 4, lost about 300 feet of altitude during cruise before stabilising and landing safely in Delhi. A few passengers and cabin crew members reported injuries during the incident. The aircraft was carrying 137 passengers and eight crew members.

Both flight crew members underwent psychoactive substance screening following the incident, as required under standard operating procedures. The pilot-in-command's sample was sent to a designated laboratory for confirmatory analysis, with the final report awaited, the ministry stated.

The incident has been classified as a serious incident and is being investigated by the Aircraft Accident Investigation Bureau. Pending completion of the investigation and testing process, the Directorate General of Civil Aviation has taken both flight crew members off the roster.

DGCA reported 889 serious tech defects in flights last year

The Directorate General of Civil Aviation (DGCA) recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data.

The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. PTI

Notes :

1. The above Consolidated and Standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Shaily Engineering Plastics Limited ('Parent Company') in their respective meetings held on August 08, 2026. The Statutory auditors of the Parent Company have carried out limited review of the unaudited Consolidated and Standalone financial results for the quarter ended June 30, 2026. The Statutory auditors have expressed an unmodified conclusion.
2. The above Consolidated and Standalone financial results of the Parent Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 (the 'Act') read with the relevant rules thereunder and in terms of Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. The figures of quarter ended March 31, 2026 are the balancing figures between audited figures in respect of full financial year and the limited reviewed published year to date figures up to third quarter of previous financial year.
4. During the quarter ended June 30, 2026, the Parent Company has alloted 40,155 equity shares of ₹ 2/- each to eligible employees upon exercise of Option under the Parent Company's ESOP Plan 2019. Pursuant to this allotment, the paid up equity share capital of the Parent Company has increased from 45,955,093 equity shares of ₹ 2/- each to 45,995,248 equity shares of ₹ 2/- each.
5. In accordance with 'Ind AS 108 - Operating Segments', the Group operates in one business segment i.e. 'Manufacturing of customised components of plastic and other materials'.
6. The consolidated financial results of the Parent Company include information of wholly owned subsidiaries Shaily Innovations Ltd (formerly known as Shaily (UK) Ltd) and Shaily Innovations FZCO for quarter ended June 30, 2026.
7. The Group has presented the financial results in ₹ crores instead of ₹ lakhs from the current quarter. Comparative figures for previous periods have been presented in ₹ crores for consistency.
8. The above is an extract of the detailed format of Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Company website i.e. **www.shaily.com** and the Stock Exchange website i.e. **www.bseindia.com** and **www.nseindia.com**.

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

Notes :

1. The above Consolidated and Standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Shaily Engineering Plastics Limited ('Parent Company') in their respective meetings held on August 08, 2026. The Statutory auditors of the Parent Company have carried out limited review of the unaudited Consolidated and Standalone financial results for the quarter ended June 30, 2026. The Statutory auditors have expressed an unmodified conclusion.
2. The above Consolidated and Standalone financial results of the Parent Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 (the 'Act') read with the relevant rules thereunder and in terms of Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. The figures of quarter ended March 31, 2026 are the balancing figures between audited figures in respect of full financial year and the limited reviewed published year to date figures up to third quarter of previous financial year.
4. During the quarter ended June 30, 2026, the Parent Company has alloted 40,155 equity shares of ₹ 2/- each to eligible employees upon exercise of Option under the Parent Company's ESOP Plan 2019. Pursuant to this allotment, the paid up equity share capital of the Parent Company has increased from 45,955,093 equity shares of ₹ 2/- each to 45,995,248 equity shares of ₹ 2/- each.
5. In accordance with 'Ind AS 108 - Operating Segments', the Group operates in one business segment i.e. 'Manufacturing of customised components of plastic and other materials'.
6. The consolidated financial results of the Parent Company include information of wholly owned subsidiaries Shaily Innovations Ltd (formerly known as Shaily (UK) Ltd) and Shaily Innovations FZCO for quarter ended June 30, 2026.
7. The Group has presented the financial results in ₹ crores instead of ₹ lakhs from the current quarter. Comparative figures for previous periods have been presented in ₹ crores for consistency.
8. The above is an extract of the detailed format of Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Company website i.e. **www.shaily.com** and the Stock Exchange website i.e. **www.bseindia.com** and **www.nseindia.com**.

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

2022	2,000-3,000	29
2023	1,500-2,000	42
2024	4,000-6,000	420
2025	2,000-3,000	35

■ **15** deaths reported so far this year.
The economic impact is yet to be assessed

Source: IPE Global & media reports

The ongoing flood situation in Kerala has so far claimed around 15 lives and affected several livelihoods. According to media reports, around 7,674 people have been temporarily resettled in 316 camps. The state has already sought ₹110 crore emergency relief from the Centre to offset farm sector losses. As many as 36,829 farmers having about 3,264 hectares of agricultural land were affected by heavy rain and floods so far.

Amid this, a study by development consultancy firm IPE Global indicates that the state's flood frequency has shifted from episodic, or once every three to five years before 2018, to near-annual, with a five-fold increase within a single decade. It adds that districts like Wayanad and Idukki have already crossed into extreme compound risk territory. It also warns that such events will occur frequently going ahead. Here is a detailed look at the impact of floods on Kerala's economy and life in the last five years, and its reasons.

2018 floods: The worst in recent years

From a major flood once every 3-5 years before 2018, Kerala now faces monsoon wrath every season

According to Abinash Mohanty, global sector head- climate change & sustainability, IPE Global, a multi-hazard vulnerability assessment for Kerala reveals a statistically significant shift in the return periods of hydrometeorological hazards that demands immediate policy intervention that can climate-proof lives, livelihoods and infrastructures.

Looking into this assessment, Kerala has moved from experiencing a major flood once every three to five years before 2018 to experiencing one every single monsoon season— a five-fold increase in frequency within a decade.

"The 2024 Wayanad catastrophe — 420 lives lost in six hours of rainfall that should statistically occur once in 75 to 200 years — is no longer an outlier. Under La Niña conditions and accelerating monsoon intensification, we project compound events will strike two to three times more frequently by 2035. Kerala does not need more rescue boats after the flood arrives. It needs a system that activates departments before the rain falls. Every life lost, every livelihood washed away, and every road and bridge that collapses is proof that we are still building and governing for yesterday's climate, not tomorrow's," he added.

Phuket flight turbulence: Both A-I pilots taken off roster amid drug scrutiny

PRESS TRUST OF INDIA
New Delhi, 9 August

The pilot-in-command of an Air India (A-I) aircraft that experienced a sudden loss of altitude during a Phuket-Delhi flight has undergone confirmatory testing after an initial psychoactive substance screening indicated that the result requires further analysis, the Civil Aviation Ministry said on Sunday. Both pilots on duty during the incident have been taken off the roster until the investigation into the incident is completed.

The Airbus A320, operating flight AI2379 from Phuket to Delhi on August 4, lost about 300 feet of altitude during cruise before stabilising and landing safely in Delhi. A few passengers and cabin crew members reported injuries during the incident. The aircraft was carrying 137 passengers and eight crew members.

Both flight crew members underwent psychoactive substance screening following the incident, as required under standard operating procedures. The pilot-in-command's sample was sent to a designated laboratory for confirmatory analysis, with the final report awaited, the ministry stated.

The incident has been classified as a serious incident and is being investigated by the Aircraft Accident Investigation Bureau. Pending completion of the investigation and testing process, the Directorate General of Civil Aviation has taken both flight crew members off the roster.

DGCA reported 889 serious tech defects in flights last year

The Directorate General of Civil Aviation (DGCA) recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data.

The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. PTI

Notes :

1. The above Consolidated and Standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Shaily Engineering Plastics Limited ('Parent Company') in their respective meetings held on August 08, 2026. The Statutory auditors of the Parent Company have carried out limited review of the unaudited Consolidated and Standalone financial results for the quarter ended June 30, 2026. The Statutory auditors have expressed an unmodified conclusion.
2. The above Consolidated and Standalone financial results of the Parent Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 (the 'Act') read with the relevant rules thereunder and in terms of Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. The figures of quarter ended March 31, 2026 are the balancing figures between audited figures in respect of full financial year and the limited reviewed published year to date figures up to third quarter of previous financial year.
4. During the quarter ended June 30, 2026, the Parent Company has alloted 40,155 equity shares of ₹ 2/- each to eligible employees upon exercise of Option under the Parent Company's ESOP Plan 2019. Pursuant to this allotment, the paid up equity share capital of the Parent Company has increased from 45,955,093 equity shares of ₹ 2/- each to 45,995,248 equity shares of ₹ 2/- each.
5. In accordance with 'Ind AS 108 - Operating Segments', the Group operates in one business segment i.e. 'Manufacturing of customised components of plastic and other materials'.
6. The consolidated financial results of the Parent Company include information of wholly owned subsidiaries Shaily Innovations Ltd (formerly known as Shaily (UK) Ltd) and Shaily Innovations FZCO for quarter ended June 30, 2026.
7. The Group has presented the financial results in ₹ crores instead of ₹ lakhs from the current quarter. Comparative figures for previous periods have been presented in ₹ crores for consistency.
8. The above is an extract of the detailed format of Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Company website i.e. **www.shaily.com** and the Stock Exchange website i.e. **www.bseindia.com** and **www.nseindia.com**.

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

Kerala's flood woes continue

₹20,000 cr
Approximate financial loss suffered by the state between 2021 and 2025

620
Reported number of deaths between 2021 and 2026

Year-wise impact

	Economic impact (₹ cr)	Deaths
2021	3,500-5,000	80
2022	2,000-3,000	29
2023	1,500-2,000	42
2024	4,000-6,000	420
2025	2,000-3,000	35

■ **15** deaths reported so far this year.
The economic impact is yet to be assessed

Source: IPE Global & media reports

The ongoing flood situation in Kerala has so far claimed around 15 lives and affected several livelihoods. According to media reports, around 7,674 people have been temporarily resettled in 316 camps. The state has already sought ₹110 crore emergency relief from the Centre to offset farm sector losses. As many as 36,829 farmers having about 3,264 hectares of agricultural land were affected by heavy rain and floods so far.

Amid this, a study by development consultancy firm IPE Global indicates that the state's flood frequency has shifted from episodic, or once every three to five years before 2018, to near-annual, with a five-fold increase within a single decade. It adds that districts like Wayanad and Idukki have already crossed into extreme compound risk territory. It also warns that such events will occur frequently going ahead. Here is a detailed look at the impact of floods on Kerala's economy and life in the last five years, and its reasons.

2018 floods: The worst in recent years

From a major flood once every 3-5 years before 2018, Kerala now faces monsoon wrath every season

According to Abinash Mohanty, global sector head- climate change & sustainability, IPE Global, a multi-hazard vulnerability assessment for Kerala reveals a statistically significant shift in the return periods of hydrometeorological hazards that demands immediate policy intervention that can climate-proof lives, livelihoods and infrastructures.

Looking into this assessment, Kerala has moved from experiencing a major flood once every three to five years before 2018 to experiencing one every single monsoon season— a five-fold increase in frequency within a decade.

"The 2024 Wayanad catastrophe — 420 lives lost in six hours of rainfall that should statistically occur once in 75 to 200 years — is no longer an outlier. Under La Niña conditions and accelerating monsoon intensification, we project compound events will strike two to three times more frequently by 2035. Kerala does not need more rescue boats after the flood arrives. It needs a system that activates departments before the rain falls. Every life lost, every livelihood washed away, and every road and bridge that collapses is proof that we are still building and governing for yesterday's climate, not tomorrow's," he added.

Phuket flight turbulence: Both A-I pilots taken off roster amid drug scrutiny

PRESS TRUST OF INDIA
New Delhi, 9 August

The pilot-in-command of an Air India (A-I) aircraft that experienced a sudden loss of altitude during a Phuket-Delhi flight has undergone confirmatory testing after an initial psychoactive substance screening indicated that the result requires further analysis, the Civil Aviation Ministry said on Sunday. Both pilots on duty during the incident have been taken off the roster until the investigation into the incident is completed.

The Airbus A320, operating flight AI2379 from Phuket to Delhi on August 4, lost about 300 feet of altitude during cruise before stabilising and landing safely in Delhi. A few passengers and cabin crew members reported injuries during the incident. The aircraft was carrying 137 passengers and eight crew members.

Both flight crew members underwent psychoactive substance screening following the incident, as required under standard operating procedures. The pilot-in-command's sample was sent to a designated laboratory for confirmatory analysis, with the final report awaited, the ministry stated.

The incident has been classified as a serious incident and is being investigated by the Aircraft Accident Investigation Bureau. Pending completion of the investigation and testing process, the Directorate General of Civil Aviation has taken both flight crew members off the roster.

DGCA reported 889 serious tech defects in flights last year

The Directorate General of Civil Aviation (DGCA) recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data.

The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. PTI

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

Kerala's flood woes continue

2022	2,000-3,000	29
2023	1,500-2,000	42
2024	4,000-6,000	420
2025	2,000-3,000	35

■ **15** deaths reported so far this year.
The economic impact is yet to be assessed

Source: IPE Global & media reports

The ongoing flood situation in Kerala has so far claimed around 15 lives and affected several livelihoods. According to media reports, around 7,674 people have been temporarily resettled in 316 camps. The state has already sought ₹110 crore emergency relief from the Centre to offset farm sector losses. As many as 36,829 farmers having about 3,264 hectares of agricultural land were affected by heavy rain and floods so far.

Amid this, a study by development consultancy firm IPE Global indicates that the state's flood frequency has shifted from episodic, or once every three to five years before 2018, to near-annual, with a five-fold increase within a single decade. It adds that districts like Wayanad and Idukki have already crossed into extreme compound risk territory. It also warns that such events will occur frequently going ahead. Here is a detailed look at the impact of floods on Kerala's economy and life in the last five years, and its reasons.

2018 floods: The worst in recent years

From a major flood once every 3-5 years before 2018, Kerala now faces monsoon wrath every season

According to Abinash Mohanty, global sector head- climate change & sustainability, IPE Global, a multi-hazard vulnerability assessment for Kerala reveals a statistically significant shift in the return periods of hydrometeorological hazards that demands immediate policy intervention that can climate-proof lives, livelihoods and infrastructures.

Looking into this assessment, Kerala has moved from experiencing a major flood once every three to five years before 2018 to experiencing one every single monsoon season— a five-fold increase in frequency within a decade.

"The 2024 Wayanad catastrophe — 420 lives lost in six hours of rainfall that should statistically occur once in 75 to 200 years — is no longer an outlier. Under La Niña conditions and accelerating monsoon intensification, we project compound events will strike two to three times more frequently by 2035. Kerala does not need more rescue boats after the flood arrives. It needs a system that activates departments before the rain falls. Every life lost, every livelihood washed away, and every road and bridge that collapses is proof that we are still building and governing for yesterday's climate, not tomorrow's," he added.

Phuket flight turbulence: Both A-I pilots taken off roster amid drug scrutiny

PRESS TRUST OF INDIA
New Delhi, 9 August

The pilot-in-command of an Air India (A-I) aircraft that experienced a sudden loss of altitude during a Phuket-Delhi flight has undergone confirmatory testing after an initial psychoactive substance screening indicated that the result requires further analysis, the Civil Aviation Ministry said on Sunday. Both pilots on duty during the incident have been taken off the roster until the investigation into the incident is completed.

The Airbus A320, operating flight AI2379 from Phuket to Delhi on August 4, lost about 300 feet of altitude during cruise before stabilising and landing safely in Delhi. A few passengers and cabin crew members reported injuries during the incident. The aircraft was carrying 137 passengers and eight crew members.

Both flight crew members underwent psychoactive substance screening following the incident, as required under standard operating procedures. The pilot-in-command's sample was sent to a designated laboratory for confirmatory analysis, with the final report awaited, the ministry stated.

The incident has been classified as a serious incident and is being investigated by the Aircraft Accident Investigation Bureau. Pending completion of the investigation and testing process, the Directorate General of Civil Aviation has taken both flight crew members off the roster.

DGCA reported 889 serious tech defects in flights last year

The Directorate General of Civil Aviation (DGCA) recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data.

The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. PTI

Notes :

1. The above Consolidated and Standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Shaily Engineering Plastics Limited ('Parent Company') in their respective meetings held on August 08, 2026. The Statutory auditors of the Parent Company have carried out limited review of the unaudited Consolidated and Standalone financial results for the quarter ended June 30, 2026. The Statutory auditors have expressed an unmodified conclusion.
2. The above Consolidated and Standalone financial results of the Parent Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 (the 'Act') read with the relevant rules thereunder and in terms of Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. The figures of quarter ended March 31, 2026 are the balancing figures between audited figures in respect of full financial year and the limited reviewed published year to date figures up to third quarter of previous financial year.
4. During the quarter ended June 30, 2026, the Parent Company has alloted 40,155 equity shares of ₹ 2/- each to eligible employees upon exercise of Option under the Parent Company's ESOP Plan 2019. Pursuant to this allotment, the paid up equity share capital of the Parent Company has increased from 45,955,093 equity shares of ₹ 2/- each to 45,995,248 equity shares of ₹ 2/- each.
5. In accordance with 'Ind AS 108 - Operating Segments', the Group operates in one business segment i.e. 'Manufacturing of customised components of plastic and other materials'.
6. The consolidated financial results of the Parent Company include information of wholly owned subsidiaries Shaily Innovations Ltd (formerly known as Shaily (UK) Ltd) and Shaily Innovations FZCO for quarter ended June 30, 2026.
7. The Group has presented the financial results in ₹ crores instead of ₹ lakhs from the current quarter. Comparative figures for previous periods have been presented in ₹ crores for consistency.
8. The above is an extract of the detailed format of Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Company website i.e. **www.shaily.com** and the Stock Exchange website i.e. **www.bseindia.com** and **www.nseindia.com**.

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

Notes :

1. The above Consolidated and Standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Shaily Engineering Plastics Limited ('Parent Company') in their respective meetings held on August 08, 2026. The Statutory auditors of the Parent Company have carried out limited review of the unaudited Consolidated and Standalone financial results for the quarter ended June 30, 2026. The Statutory auditors have expressed an unmodified conclusion.
2. The above Consolidated and Standalone financial results of the Parent Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 (the 'Act') read with the relevant rules thereunder and in terms of Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. The figures of quarter ended March 31, 2026 are the balancing figures between audited figures in respect of full financial year and the limited reviewed published year to date figures up to third quarter of previous financial year.
4. During the quarter ended June 30, 2026, the Parent Company has alloted 40,155 equity shares of ₹ 2/- each to eligible employees upon exercise of Option under the Parent Company's ESOP Plan 2019. Pursuant to this allotment, the paid up equity share capital of the Parent Company has increased from 45,955,093 equity shares of ₹ 2/- each to 45,995,248 equity shares of ₹ 2/- each.
5. In accordance with 'Ind AS 108 - Operating Segments', the Group operates in one business segment i.e. 'Manufacturing of customised components of plastic and other materials'.
6. The consolidated financial results of the Parent Company include information of wholly owned subsidiaries Shaily Innovations Ltd (formerly known as Shaily (UK) Ltd) and Shaily Innovations FZCO for quarter ended June 30, 2026.
7. The Group has presented the financial results in ₹ crores instead of ₹ lakhs from the current quarter. Comparative figures for previous periods have been presented in ₹ crores for consistency.
8. The above is an extract of the detailed format of Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Company website i.e. **www.shaily.com** and the Stock Exchange website i.e. **www.bseindia.com** and **www.nseindia.com**.

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

Kerala's flood woes continue

₹20,000 cr
Approximate financial loss suffered by the state between 2021 and 2025

620
Reported number of deaths between 2021 and 2026

Year-wise impact

	Economic impact (₹ cr)	Deaths
2021	3,500-5,000	80
2022	2,000-3,000	29
2023	1,500-2,000	42
2024	4,000-6,000	420
2025	2,000-3,000	35

■ **15** deaths reported so far this year.
The economic impact is yet to be assessed

Source: IPE Global & media reports

The ongoing flood situation in Kerala has so far claimed around 15 lives and affected several livelihoods. According to media reports, around 7,674 people have been temporarily resettled in 316 camps. The state has already sought ₹110 crore emergency relief from the Centre to offset farm sector losses. As many as 36,829 farmers having about 3,264 hectares of agricultural land were affected by heavy rain and floods so far.

Amid this, a study by development consultancy firm IPE Global indicates that the state's flood frequency has shifted from episodic, or once every three to five years before 2018, to near-annual, with a five-fold increase within a single decade. It adds that districts like Wayanad and Idukki have already crossed into extreme compound risk territory. It also warns that such events will occur frequently going ahead. Here is a detailed look at the impact of floods on Kerala's economy and life in the last five years, and its reasons.

2018 floods: The worst in recent years

From a major flood once every 3-5 years before 2018, Kerala now faces monsoon wrath every season

According to Abinash Mohanty, global sector head- climate change & sustainability, IPE Global, a multi-hazard vulnerability assessment for Kerala reveals a statistically significant shift in the return periods of hydrometeorological hazards that demands immediate policy intervention that can climate-proof lives, livelihoods and infrastructures.

Looking into this assessment, Kerala has moved from experiencing a major flood once every three to five years before 2018 to experiencing one every single monsoon season— a five-fold increase in frequency within a decade.

"The 2024 Wayanad catastrophe — 420 lives lost in six hours of rainfall that should statistically occur once in 75 to 200 years — is no longer an outlier. Under La Niña conditions and accelerating monsoon intensification, we project compound events will strike two to three times more frequently by 2035. Kerala does not need more rescue boats after the flood arrives. It needs a system that activates departments before the rain falls. Every life lost, every livelihood washed away, and every road and bridge that collapses is proof that we are still building and governing for yesterday's climate, not tomorrow's," he added.

Phuket flight turbulence: Both A-I pilots taken off roster amid drug scrutiny

PRESS TRUST OF INDIA
New Delhi, 9 August

The pilot-in-command of an Air India (A-I) aircraft that experienced a sudden loss of altitude during a Phuket-Delhi flight has undergone confirmatory testing after an initial psychoactive substance screening indicated that the result requires further analysis, the Civil Aviation Ministry said on Sunday. Both pilots on duty during the incident have been taken off the roster until the investigation into the incident is completed.

The Airbus A320, operating flight AI2379 from Phuket to Delhi on August 4, lost about 300 feet of altitude during cruise before stabilising and landing safely in Delhi. A few passengers and cabin crew members reported injuries during the incident. The aircraft was carrying 137 passengers and eight crew members.

Both flight crew members underwent psychoactive substance screening following the incident, as required under standard operating procedures. The pilot-in-command's sample was sent to a designated laboratory for confirmatory analysis, with the final report awaited, the ministry stated.

The incident has been classified as a serious incident and is being investigated by the Aircraft Accident Investigation Bureau. Pending completion of the investigation and testing process, the Directorate General of Civil Aviation has taken both flight crew members off the roster.

DGCA reported 889 serious tech defects in flights last year

The Directorate General of Civil Aviation (DGCA) recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data.

The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. PTI

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

2025	2,000-3,000	35

■ **15** deaths reported so far this year.
The economic impact is yet to be assessed

Source: IPE Global & media reports

The ongoing flood situation in Kerala has so far claimed around 15 lives and affected several livelihoods. According to media reports, around 7,674 people have been temporarily resettled in 316 camps. The state has already sought ₹110 crore emergency relief from the Centre to offset farm sector losses. As many as 36,829 farmers having about 3,264 hectares of agricultural land were affected by heavy rain and floods so far.

Amid this, a study by development consultancy firm IPE Global indicates that the state's flood frequency has shifted from episodic, or once every three to five years before 2018, to near-annual, with a five-fold increase within a single decade. It adds that districts like Wayanad and Idukki have already crossed into extreme compound risk territory. It also warns that such events will occur frequently going ahead. Here is a detailed look at the impact of floods on Kerala's economy and life in the last five years, and its reasons.

2018 floods: The worst in recent years

From a major flood once every 3-5 years before 2018, Kerala now faces monsoon wrath every season

According to Abinash Mohanty, global sector head- climate change & sustainability, IPE Global, a multi-hazard vulnerability assessment for Kerala reveals a statistically significant shift in the return periods of hydrometeorological hazards that demands immediate policy intervention that can climate-proof lives, livelihoods and infrastructures.

Looking into this assessment, Kerala has moved from experiencing a major flood once every three to five years before 2018 to experiencing one every single monsoon season— a five-fold increase in frequency within a decade.

"The 2024 Wayanad catastrophe — 420 lives lost in six hours of rainfall that should statistically occur once in 75 to 200 years — is no longer an outlier. Under La Niña conditions and accelerating monsoon intensification, we project compound events will strike two to three times more frequently by 2035. Kerala does not need more rescue boats after the flood arrives. It needs a system that activates departments before the rain falls. Every life lost, every livelihood washed away, and every road and bridge that collapses is proof that we are still building and governing for yesterday's climate, not tomorrow's," he added.

Phuket flight turbulence: Both A-I pilots taken off roster amid drug scrutiny

PRESS TRUST OF INDIA
New Delhi, 9 August

The pilot-in-command of an Air India (A-I) aircraft that experienced a sudden loss of altitude during a Phuket-Delhi flight has undergone confirmatory testing after an initial psychoactive substance screening indicated that the result requires further analysis, the Civil Aviation Ministry said on Sunday. Both pilots on duty during the incident have been taken off the roster until the investigation into the incident is completed.

The Airbus A320, operating flight AI2379 from Phuket to Delhi on August 4, lost about 300 feet of altitude during cruise before stabilising and landing safely in Delhi. A few passengers and cabin crew members reported injuries during the incident. The aircraft was carrying 137 passengers and eight crew members.

Both flight crew members underwent psychoactive substance screening following the incident, as required under standard operating procedures. The pilot-in-command's sample was sent to a designated laboratory for confirmatory analysis, with the final report awaited, the ministry stated.

The incident has been classified as a serious incident and is being investigated by the Aircraft Accident Investigation Bureau. Pending completion of the investigation and testing process, the Directorate General of Civil Aviation has taken both flight crew members off the roster.

DGCA reported 889 serious tech defects in flights last year

The Directorate General of Civil Aviation (DGCA) recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data.

The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. PTI

Notes :

1. The above Consolidated and Standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Shaily Engineering Plastics Limited ('Parent Company') in their respective meetings held on August 08, 2026. The Statutory auditors of the Parent Company have carried out limited review of the unaudited Consolidated and Standalone financial results for the quarter ended June 30, 2026. The Statutory auditors have expressed an unmodified conclusion.
2. The above Consolidated and Standalone financial results of the Parent Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 (the 'Act') read with the relevant rules thereunder and in terms of Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. The figures of quarter ended March 31, 2026 are the balancing figures between audited figures in respect of full financial year and the limited reviewed published year to date figures up to third quarter of previous financial year.
4. During the quarter ended June 30, 2026, the Parent Company has alloted 40,155 equity shares of ₹ 2/- each to eligible employees upon exercise of Option under the Parent Company's ESOP Plan 2019. Pursuant to this allotment, the paid up equity share capital of the Parent Company has increased from 45,955,093 equity shares of ₹ 2/- each to 45,995,248 equity shares of ₹ 2/- each.
5. In accordance with 'Ind AS 108 - Operating Segments', the Group operates in one business segment i.e. 'Manufacturing of customised components of plastic and other materials'.
6. The consolidated financial results of the Parent Company include information of wholly owned subsidiaries Shaily Innovations Ltd (formerly known as Shaily (UK) Ltd) and Shaily Innovations FZCO for quarter ended June 30, 2026.
7. The Group has presented the financial results in ₹ crores instead of ₹ lakhs from the current quarter. Comparative figures for previous periods have been presented in ₹ crores for consistency.
8. The above is an extract of the detailed format of Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Company website i.e. **www.shaily.com** and the Stock Exchange website i.e. **www.bseindia.com** and **www.nseindia.com**.

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

Notes :

1. The above Consolidated and Standalone financial results have been reviewed by the Audit Committee and approved by the Board of Directors of the Shaily Engineering Plastics Limited ('Parent Company') in their respective meetings held on August 08, 2026. The Statutory auditors of the Parent Company have carried out limited review of the unaudited Consolidated and Standalone financial results for the quarter ended June 30, 2026. The Statutory auditors have expressed an unmodified conclusion.
2. The above Consolidated and Standalone financial results of the Parent Company have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim financial reporting" (Ind AS 34) prescribed under Section 133 of the Companies Act, 2013 (the 'Act') read with the relevant rules thereunder and in terms of Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. The figures of quarter ended March 31, 2026 are the balancing figures between audited figures in respect of full financial year and the limited reviewed published year to date figures up to third quarter of previous financial year.
4. During the quarter ended June 30, 2026, the Parent Company has alloted 40,155 equity shares of ₹ 2/- each to eligible employees upon exercise of Option under the Parent Company's ESOP Plan 2019. Pursuant to this allotment, the paid up equity share capital of the Parent Company has increased from 45,955,093 equity shares of ₹ 2/- each to 45,995,248 equity shares of ₹ 2/- each.
5. In accordance with 'Ind AS 108 - Operating Segments', the Group operates in one business segment i.e. 'Manufacturing of customised components of plastic and other materials'.
6. The consolidated financial results of the Parent Company include information of wholly owned subsidiaries Shaily Innovations Ltd (formerly known as Shaily (UK) Ltd) and Shaily Innovations FZCO for quarter ended June 30, 2026.
7. The Group has presented the financial results in ₹ crores instead of ₹ lakhs from the current quarter. Comparative figures for previous periods have been presented in ₹ crores for consistency.
8. The above is an extract of the detailed format of Financial Results filed with the Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Quarterly Financial Results are available on the Company website i.e. **www.shaily.com** and the Stock Exchange website i.e. **www.bseindia.com** and **www.nseindia.com**.

Isro eyes 300 satellites in six years, space station by 2035

SHINE JACOB
Chennai, 9 August

India is planning to launch at least 300 more satellites in the next five to six years, and will also have a space station by 2035, said V Narayanan, chairman of the Indian Space Research Organisation (Isro). He added that the uncrewed mission of Gaganyaan, India's first human spaceflight programme, will be launched by the end of this year.

This comes as space regulator IN-SPACe started the process of handing over the operations and management of Isro's upcoming Small Satellite Launch Complex (SLC) at Kulasekarapattinam in Tamil Nadu to the private sector. The project may see an investment of ₹986 crore.

"By the end of this year, the first uncrewed Gaganyaan rocket is going to lift off from Sriharikota. We are all working towards having our own space station by 2035. The Prime Minister has given us the task of taking at least 300 satellites to orbit in the next five to six years," Narayanan, who is also the secretary of department of space, and chairman of Space Commission, said on Saturday, while addressing the 22nd Convocation Ceremony at Great Lakes Institute of Management, at Mahabalipuram near Chennai.

PHOTO: GREAT LAKES INSTITUTE OF MANAGEMENT

V Narayanan *(centre)*, chairman of Isro, at the convocation ceremony at Great Lakes Institute of Management, Chennai

He said that the Indian space programme had evolved from depending on rockets and satellites from other countries to launching 434 foreign satellites from 36 countries on a commercial basis using Indian rockets. For the recent Operation Sindoor, too, India used over 20 satellites.

'Isro scientists saved Axiom 4 mission'

Narayanan also said that Isro scientists had played a key role in avoiding a possible mishap during the launch of the Axiom Mission 4 mission.

Last year, Shubhanshu Shukla became the first Indian astronaut to reach the International Space Station, and the first Indian to travel to space after Rakesh Sharma. The mission, which was initially supposed to be launched on June 11 last year, took place on June 25.

"On June 10, me and my team were camping in Kennedy Space Centre, and we came to know the Falcon rocket that was supposed to carry Shukla and three astronauts had a leakage problem... We insisted on correcting it... Based on our insistence, the rocket launch was called off, and a catastrophic situation was avoided," he said.

Private sector to hold key role in SLC

Last week, IN-SPACe came out with an expression of interest to hand over the operation and management of SLC to an Indian private firm. This is in alignment with the space sector reforms announced by the Government of India and the Indian Space Policy-2023, which opened space operations to private sector participation.

IN-SPACe, through Isro, will facilitate the handing over of facilities established in SLC to the selected party.

This is aimed at Indian industries with demonstrated experience in executing and managing large-scale, multi-disciplinary infrastructure and operations projects, and that are interested in undertaking the operation and management of the SLC to provide commercial launch services to launch vehicle operators.

To facilitate a smooth transition and capability development, Isro will provide the selected party with the necessary technical guidance, operational support, training, and handholding assistance for a defined period up to the completion of three launch services provided by the selected party to launch vehicle operators, or one year, whichever is earlier.

Kerala's flood woes continue

₹20,000 cr
Approximate financial loss suffered by the state between 2021 and 2025

620
Reported number of deaths between 2021 and 2026

Year-wise impact

	Economic impact (₹ cr)	Deaths
2021	3,500-5,000	80
2022	2,000-3,000	29
2023	1,500-2,000	42
2024	4,000-6,000	420
2025	2,000-3,000	35

■ **15** deaths reported so far this year.
The economic impact is yet to be assessed

Source: IPE Global & media reports

The ongoing flood situation in Kerala has so far claimed around 15 lives and affected several livelihoods. According to media reports, around 7,674 people have been temporarily resettled in 316 camps. The state has already sought ₹110 crore emergency relief from the Centre to offset farm sector losses. As many as 36,829 farmers having about 3,264 hectares of agricultural land were affected by heavy rain and floods so far.

Amid this, a study by development consultancy firm IPE Global indicates that the state's flood frequency has shifted from episodic, or once every three to five years before 2018, to near-annual, with a five-fold increase within a single decade. It adds that districts like Wayanad and Idukki have already crossed into extreme compound risk territory. It also warns that such events will occur frequently going ahead. Here is a detailed look at the impact of floods on Kerala's economy and life in the last five years, and its reasons.

2018 floods: The worst in recent years

From a major flood once every 3-5 years before 2018, Kerala now faces monsoon wrath every season

According to Abinash Mohanty, global sector head- climate change & sustainability, IPE Global, a multi-hazard vulnerability assessment for Kerala reveals a statistically significant shift in the return periods of hydrometeorological hazards that demands immediate policy intervention that can climate-proof lives, livelihoods and infrastructures.

Looking into this assessment, Kerala has moved from experiencing a major flood once every three to five years before 2018 to experiencing one every single monsoon season— a five-fold increase in frequency within a decade.

"The 2024 Wayanad catastrophe — 420 lives lost in six hours of rainfall that should statistically occur once in 75 to 200 years — is no longer an outlier. Under La Niña conditions and accelerating monsoon intensification, we project compound events will strike two to three times more frequently by 2035. Kerala does not need more rescue boats after the flood arrives. It needs a system that activates departments before the rain falls. Every life lost, every livelihood washed away, and every road and bridge that collapses is proof that we are still building and governing for yesterday's climate, not tomorrow's," he added.

Phuket flight turbulence: Both A-I pilots taken off roster amid drug scrutiny

PRESS TRUST OF INDIA
New Delhi, 9 August

The pilot-in-command of an Air India (A-I) aircraft that experienced a sudden loss of altitude during a Phuket-Delhi flight has undergone confirmatory testing after an initial psychoactive substance screening indicated that the result requires further analysis, the Civil Aviation Ministry said on Sunday. Both pilots on duty during the incident have been taken off the roster until the investigation into the incident is completed.

The Airbus A320, operating flight AI2379 from Phuket to Delhi on August 4, lost about 300 feet of altitude during cruise before stabilising and landing safely in Delhi. A few passengers and cabin crew members reported injuries during the incident. The aircraft was carrying 137 passengers and eight crew members.

Both flight crew members underwent psychoactive substance screening following the incident, as required under standard operating procedures. The pilot-in-command's sample was sent to a designated laboratory for confirmatory analysis, with the final report awaited, the ministry stated.

The incident has been classified as a serious incident and is being investigated by the Aircraft Accident Investigation Bureau. Pending completion of the investigation and testing process, the Directorate General of Civil Aviation has taken both flight crew members off the roster.

DGCA reported 889 serious tech defects in flights last year

The Directorate General of Civil Aviation (DGCA) recorded 889 serious technical defects in flights compared to 692 such faults in 2024, according to official data.

The number of serious defects recorded stood at 487 and 528 in 2023 and 2022, respectively. In 2021, the count was at 514. These figures were shared by Minister of State for Civil Aviation Murlidhar Mohol in the Lok Sabha, as part of a written reply on August 6. PTI

પેપર લાંબુ અને અઘરું હતું: અનેક ઉમેદવારો

GPSCની પ્રિલિમિનરી પરીક્ષા શાંતિપૂર્ણ માહોલમાં યોજાઈ

● ગાંધીનગર, તા.૯

ગુજરાત જાહેર સેવા આયોગ (GPSC) દ્વારા વર્ગ-૧ અને વર્ગ-૨ની વિવિધ ૩૪ જેટલી જગ્યાઓ માટેની પ્રિલિમિનરી પરીક્ષા આજે શાંતિપૂર્ણ માહોલમાં યોજાઈ ગઈ છે.

નોંધનીય છે કે, અગાઉ ૧લી ઓગસ્ટના રોજ યોજાનારી આ કસોટી ભારે વરસાદ અને હવામાન વિભાગની આગાહીને પગલે બે વખત મોકૂફ રાખવાની ફરજ પડી હતી. જો કે, સુધારેલા કાર્યક્રમ મુજબ આજે ૯ ઓગસ્ટે રાજ્યભરમાંથી ૫૦ હજારથી વધુ ઉમેદવારોએ પરીક્ષા આપી હતી. પરીક્ષામાં કોઈપણ પ્રકારની ગેરરીતિ ન થાય તે હેતુથી વહીવટી તંત્ર દ્વારા યોગ્ય વ્યવસ્થા સાથે ચાંપતો પોલીસ બંદોબસ્ત પણ ગોઠવવામાં આવ્યો હતો.

આજે સવારે ૧૧ વાગ્યાથી બપોરે ૧૨ વાગ્યા દરમિયાન યોજાયેલી સામાન્ય અભ્યાસની આ પ્રાથમિક કસોટીમાં અનેક મહત્વની પોસ્ટનો સમાવેશ થાય છે. જેમાં ગુજરાત વહીવટી સેવા વર્ગ-૧, સિવિલ સર્વિસ વર્ગ-૧ અને ૨ તથા મ્યુનિસિપલ ચીફ ઓફિસર સર્વિસ વર્ગ-૨ મુખ્ય છે. આ ઉપરાંત પશુ ચિકિત્સા અધિકારી, મદદનીશ ઈજનેર, મહિલા અને બાળ અધિકારી, લીગલ ઓફિસર, નર્સિંગ સેવા તેમજ ભૂસ્તરશાસ્ત્રી અને ઔદ્યોગિક સલામતી અધિકારી જેવી વિવિધ ૩૪ જેટલી કેટેગરીની ભરતી માટે ઉમેદવારોએ પરીક્ષા આપી હતી. એક્ઝામ પૂર્ણ થયા બાદ બહાર નીકળેલા મોટાભાગના ઉમેદવારોને ૧૦૦ MCQનું આ પેપર વિધાનવાળા પ્રશ્નોને કારણે લાંબુ અને અઘરું લાગ્યું હતું.

આજના આ આયોજનમાં માત્ર અમદાવાદ શહેર અને ગ્રામ્ય વિસ્તારમાંથી જ ૩૭ હજાર કરતાં વધારે પરીક્ષાર્થીઓ ઉપસ્થિત રહ્યા હતા. આ માટે તંત્ર દ્વારા અમદાવાદના ૧૫૫ જેટલા પરીક્ષા કેન્દ્રો પર કુલ ૧,૫૮૦ બ્લોકની વ્યવસ્થા કરવામાં આવી હતી. ઉમેદવારોને છેલ્લી ઘડીએ કોઈપણ પ્રકારની હાલાકી ન પડે તે માટે સવારે ૯ વાગ્યાથી જ તમામ કેન્દ્રો પર પ્રવેશ આપવાની શરૂઆત કરી દેવામાં આવી હતી.

૧૧ ઓગસ્ટે ૫ જિલ્લામાં એલર્ટ

રાજ્યમાં ૪ વરસાદી સિસ્ટમ સક્રિય, આગામી ૭ દિવસ વરસાદની આગાહી

● ગાંધીનગર, તા.૯

છેલ્લા કેટલાક દિવસોથી વરસાદે વિરામ લેતા રાજ્યમાં ગરમી અને બફારાએ લોકોની મુશ્કેલી વધારી છે. પરંતુ ગરમીથી પરેશાન લોકો માટે હવે રાહતના સમાચાર છે. હવામાન વિભાગની લેટેસ્ટ આગાહી અનુસાર, ગુજરાતમાં ફરી એકવાર વરસાદી માહોલ જામવા જઈ રહ્યો છે. રાજ્ય પર એકસાથે ૪ વરસાદી સિસ્ટમ સક્રિય થઈ છે, જેને પગલે આગામી દિવસોમાં ગાજવીજ અને પવન સાથે સાર્વત્રિક વરસાદની આગાહી કરવામાં આવી છે.

હાલમાં ગુજરાત પર લો પ્રેશર, મોનસૂન ટ્રફ, વેસ્ટર્ન ડિસ્ટર્બન્સ અને સાયક્લોનિક સર્ફ્યુલેશન સક્રિય થયા છે. આ સિસ્ટમની અસરને કારણે આગામી ૭ દિવસ સુધી રાજ્યભરમાં હળવાથી મધ્યમ વરસાદ પડવાની સંભાવના છે. હાલ પૂરતી આજે અને આવતીકાલે રાજ્યમાં કોઈ ભારે વરસાદની શક્યતા નથી, પરંતુ કેટલાક છૂટાછવાયા વિસ્તારોમાં ઝરમર વરસાદ વરસી શકે છે. આગામી ૧૧ ઓગસ્ટના રોજ વરસાદનું જોર વધશે. હવામાન વિભાગે ઉત્તર અને મધ્ય ગુજરાતના કુલ ૫ જિલ્લાઓમાં ભારે વરસાદની શક્યતા વ્યક્ત કરી છે. સાવચેતીના ભાગરૂપે આ વિસ્તારોમાં 'યલો એલર્ટ' પણ જાહેર કરવામાં આવ્યું છે. આ જિલ્લાઓમાં નીચેના વિસ્તારોનો સમાવેશ થાય છે:

ચોમાસાની આ સિઝનમાં ગુજરાતમાં વરસાદના આંકડા પર નજર કરીએ તો સ્થિતિ એકંદરે ઘણી સારી રહી છે. હવામાન વિભાગના વૈજ્ઞાનિક પ્રદીપ શર્માના જણાવ્યા અનુસાર અત્યાર સુધીમાં રાજ્યમાં સરેરાશ ૪૯૧.૨ દ્વદ્વ (એટલે કે આશરે ૧૯.૬૪ ઈંચ) વરસાદ ખાબકી ચૂક્યો છે. સામાન્ય રીતે આ સમયગાળા દરમિયાન રાજ્યમાં ૪૫૦.૫ દ્વદ્વ વરસાદ થવો જોઈએ. આ આંકડાઓ સ્પષ્ટ કરે છે કે ગુજરાતમાં અત્યાર સુધીમાં સામાન્ય કરતા ૯ ટકા વધુ વરસાદ નોંધાયો છે. જોકે, એક તરફ સમગ્ર ગુજરાતમાં સારો વરસાદ નોંધાયો છે, તો બીજી તરફ કચ્છ અને સૌરાષ્ટ્રના વિસ્તારો હજુ પણ સારા વરસાદની રાહ જોઈ રહ્યા છે. આંકડા મુજબ, સૌરાષ્ટ્ર અને કચ્છ પંથકમાં સિઝનનો સરેરાશ વરસાદ હજુ પણ ૧૩ ટકા જેટલો ઓછો નોંધાયો છે. આશા છે કે આ નવી વરસાદી સિસ્ટમ સૌરાષ્ટ્રની આ ઘટ પણ પૂરી કરી દેશે.

શ્રી લક્ષ્મી મહિલા કો-ઓપરેટિવ ક્રેડિટ સોસાયટી મંડળીની વાર્ષિક સામાન્ય સભા યોજાઈ

● વડોદરા, તા. ૯

વડોદરા તા. ૮ ઓગસ્ટ, ૨૦૨૬ના રોજ વડોદરા સ્થિત વાણિજ્ય ભવન ખાતે શ્રી લક્ષ્મી મહિલા કો-ઓપરેટિવ ક્રેડિટ સોસાયટી મંડળીની વાર્ષિક સામાન્ય સભા ઉત્સાહભેર યોજાઈ હતી.

આ પ્રસંગે વડોદરા શહેર જિલ્લા સહકારી સંઘના પ્રમુખ શ્રી પ્રવીણભાઈ પટેલ મુખ્ય મહેમાન તરીકે ઉપસ્થિત રહ્યા હતા. તેમણે મંડળીના સભ્યોના બાળકોને વિવિધ ક્ષેત્રોમાં ઉત્કૃષ્ટ સિદ્ધિઓ બદલ ઈનામો અર્પણ કર્યા હતા.

કાર્યક્રમમાં લાયન્સ ક્લબ ઓફ તરસાલીના પ્રમુખ જાગૃતિબેન મિસ્ત્રી તથા જાણીતા ઉદ્યોગપતિ શ્રી અમૃતભાઈ પટેલ વિશિષ્ટ મહેમાન તરીકે હાજર રહ્યા હતા.

મંડળીના પ્રમુખ એડવોકેટ અને નોટરી શ્રીમતી વિભૂતિબેન વ્યાસે સ્વાગત પ્રવચન આપી ઉપસ્થિત મહેમાનો અને સભ્યોનું હાર્દિક સ્વાગત કર્યું હતું. તેમણે મંડળીની સિદ્ધિઓ, કામગીરી અને ભાવિ આયોજન અંગે વિસ્તૃત માહિતી આપી હતી.

સભામાં મંડળીની વાર્ષિક કામગીરી અને નાણાકીય પ્રગતિની સમીક્ષા કરવામાં આવી હતી. ઉપરાંત જણાવવામાં આવ્યું હતું કે શ્રી લક્ષ્મી મહિલા કો-ઓપરેટિવ ક્રેડિટ સોસાયટી ગુજરાત રાજ્યની અગ્રણી અને સૌથી વધુ નફાકારક મહિલા સહકારી ક્રેડિટ સોસાયટીઓમાં સ્થાન ધરાવે છે, જે સમગ્ર વડોદરા શહેર અને જિલ્લાનું ગૌરવ છે.

કાર્યક્રમના અંતે તમામ મહેમાનો, સભ્યો અને ઉપસ્થિતોનો આભાર વ્યક્ત કરવામાં આવ્યો હતો.

DJ વગાડવા બાબતે પોલીસ પર પથ્થરમારો : ગોધરા રોડ મુવાલીયા ચોકડી પાસે વાતાવરણ ગરમાયું: અસંખ્ય વાહનોમાં તોડફોડ બાદ સમગ્ર વિસ્તાર પોલીસ છાવણીમાં ફેરવાયો

દાહોદમાં વિશ્વ આદિવાસી દિવસની ઉજવણીમાં બબાલ

● દાહોદ, તા.૯

વિશ્વ આદિવાસી દિવસની ઉજવણી દરમિયાન દાહોદ જિલ્લામાં વાતાવરણ અચાનક ડહોળાયું હોવાના દ્રશ્યો સામે આવી રહ્યા છે.આદિવાસી સમાજ માટે મહત્વના ગણાતા આ દિવસ પરની ઉજવણી દરમિયાન દાહોદ શહેરમાં ડીજે (DJ) વગાડવા જેવી બાબતે ઉગ્ર માથાકૂટ સર્જાઈ હતી. ફ્લત વગાડવા બાબતે શરૂ થયેલી બબાલ વચ્ચે જેને પથ્થરમારાની ઘટના સામે આવી છે. જેને કાબૂમાં લેવા પોલીસે ટીયરગેસના સેલ છોડ્યા હોવાની વિગતો સામે આવી રહી છે. તો બીજી તરફ, દાહોદના ગુરુ ગોવિંગ લીમડી તાલુકા આયોજીત વિશ્વ આદિવાસી દિવસની ઉજવણીમાં ભારેલા અગ્નિ જેવી સ્થિતિ સર્જાઈ હોવાનો કિસ્સો સામે આવ્યો છે. દાહોદ શહેરના ગોધરા રોડ પર આવેલી મુવાલીયા ચોકડી નજીક આદિવાસી દિવસની ઉજવણી વેળાએ પોલીસ અને સ્થાનિક લોકો વચ્ચે વાતચીત ચાલી રહી હતી તે દરમિયાન અચાનક ઉત્તેજિત ટોળાં દ્વારા પોલીસ કાફલા અને માર્ગ પર પથ્થરમારો શરૂ કરી દેવાતાં ભારે અફરાતફરી મચી ગઈ હતી. પથ્થરમારાની આ હિંસક ઘટના બનતાં જ પરિસ્થિતિ કાબૂ બહાર જતી જોઈ પોલીસે સ્થિતિ પર નિયંત્રણ મેળવવા માટે ટીયરગેસના સેલ છોડવાની ફરજ પડી હતી.

પથ્થરમારાના કારણે રોડ પર પાર્ક કરેલા અને પસાર થતાં અસંખ્ય ખાનગી તેમજ સરકારી વાહનોને ભારે નુકસાન પહોંચ્યું હતું. ઘટના બાદ તંગદિલી વધતાં સમગ્ર મુવાલીયા ચોકડી વિસ્તારને તાત્કાલિક અસરથી ચુસ્ત પોલીસ છાવણીમાં ફેરવી દેવામાં આવ્યો હતો. નોંધનીય છે કે, આદિવાસી સમાજ દ્વારા અગાઉથી જ આ કાર્યક્રમોમાં ડીજે વગાડવા પર પ્રતિબંધ મૂકવામાં આવ્યો હતો.

બીજી તરફ, વિશ્વ આદિવાસી દિવસ નિમિત્તે દાહોદના લીમડી ખાતે પણ એક ભવ્ય રેલીનું આયોજન કરવામાં આવ્યું હતું. આ રેલીમાં ગોવિંદ ગુરુ લીમડી તાલુકાના આદિવાસી સમાજના લોકો ખૂબ મોટી સંખ્યામાં પોતાના પરંપરાગત પોશાક અને પ્રતીકો સાથે જોડાયા હતા. લીમડી ખાતે યોજાયેલી આ રેલીમાં આદિવાસી સમાજનો સંગઠિત વિરોધ અને આક્રોશ સ્પષ્ટપણે જોવા મળ્યો હતો.

આ રેલી દરમિયાન મુખ્ય આકર્ષણ અને વિરોધનો સૂર પ્રસ્તાવિત જીઆઈડીસી (GIDC) સામેનો હતો. રેલીમાં આગળ ચાલી રહેલા ડીજે તથા વાહનો પર "GIDC હટાવો"ના મોટા પોસ્ટરો અને બેનરો લગાવવામાં આવ્યા હતા. દાહોદ તાલુકાના કચલધરા અને છાયણ વિસ્તારમાં તંત્ર દ્વારા પ્રસ્તાવિત કરવામાં આવેલી નવી GIDC સ્થાપવાનો આદિવાસી સમાજ દ્વારા સખત વિરોધ કરવામાં આવ્યો હતો અને સૂત્રોચ્ચાર સાથે વિરોધ પ્રદર્શન કરાયું હતું.

આદિવાસી સમાજના સ્થાનિક આગેવાનોના જણાવ્યા અનુસાર, કચલધરા અને છાયણ વિસ્તારમાં જો જીઆઈડીસી બનશે તો સ્થાનિક આદિવાસીઓની જમીનો અને આજીવિકા પર સીધી અસર પડશે. આથી જ છેલ્લા કેટલાક સમયથી આ વિસ્તારમાં જીઆઈડીસી ન બનાવવા માટે સમાજ દ્વારા સતત અને સંગઠિત વિરોધ દર્શાવવામાં આવી રહ્યો છે. વિશ્વ આદિવાસી દિવસ જેવા મહત્ત્વના દિવસે પણ આ મુદ્દો કેન્દ્રસ્થાને રહ્યો હતો.

ટીમે રૂ. ૬૬,૪૦૦નો મુદ્દામાલ જપ્ત કર્યો કપડવંજમાં દવાના નામે ચાલતા બિનઅધિકૃત ઉત્પાદન-વેચાણનો પર્દાફાશ

● કપડવંજ, તા.૯

ગુજરાતમાં ગેરકાયદે અને નકલી દવાઓ સામે ચાલી રહેલી ઝીરો ટોલરન્સ નીતિ હેઠળ નડિયાદ મદદનીશ કમિશનરની ટીમે સઘન ચેકિંગ હાથ ધર્યું હતું. જેમાં કપડવંજમાં નાના બાળકો માટેની રતવાની દવાના નામે ચાલતા બિનઅધિકૃત ઉત્પાદન અને વેચાણનો પર્દાફાશ કરી રૂ.૬૬,૪૦૦નો મુદ્દામાલ જપ્ત કરવામાં આવ્યો છે.

નાગરિકોના આરોગ્યની સુરક્ષા અને બિનઅધિકૃત તબીબી પ્રેક્ટિસ અટકાવવાના ભાગરૂપે નડિયાદ વિભાગીય કચેરી દ્વારા મોટી કાર્યવાહી કરવામાં આવી હતી. મળેલી ચોક્કસ બાતમીના આધારે પ્રવર ઔષધ નિરીક્ષક તથા ઔષધ નિરીક્ષકની ટીમે ૭ ઓગસ્ટ ૨૦૨૬ના રોજ કપડવંજના ધોળીકૂઈ ખાતે આવેલા "ડોક્ટર સોની, બાવીશી વાળાનું દવાખાનું" પર દરોડો પાડ્યો હતો અને ક્લિનિક સંબંધિત તમામ દસ્તાવેજો તથા દવાઓના જથ્થાની તપાસ હાથ ધરી હતી.

તપાસ કરતી ટીમ દ્વારા સ્થળ પરથી વેચાણ માટે રાખવામાં આવેલો શંકાસ્પદ પ્રવાહીનો જથ્થો પકડી પાડવામાં આવ્યો હતો. જેમાં લેબલ વગરની ૧૦૦ મિ.લી. ક્ષમતા ધરાવતી પારદર્શક પ્લાસ્ટિકની ૧૬૦ બોટલોમાંથી લાલ રંગનું પ્રવાહી મળી આવ્યું હતું, જેને ટીમે સીઝ કરી વધુ તપાસ અર્થે સેમ્પલ લીધા હતા.

દરોડા દરમિયાન સ્થળ પરથી "રતવાની દવાની ૧૦૦૦ ખાલી બોટલો તથા વિટામિન B-Complex દવાની ૪.૫ લીટર ક્ષમતા ધરાવતા ૯૨ ભરેલા પ્લાસ્ટિક કન્ટેનર અને વપરાયેલા ખાલી કન્ટેનર જપ્ત કરવામાં આવ્યા હતા. ટીમે સ્થળ પરથી કુલ રૂ.૬૬,૪૦૦ની કિંમતનો મુદ્દામાલ જપ્ત કર્યો છે.

પ્રાથમિક તપાસમાં સામે આવ્યું છે કે, આ દવાખાનું ચલાવતા ડૉ. સોની (B.H.M.S.) છેલ્લા પાંચ વર્ષથી આ પ્રેક્ટિસ કરતા હતા. તેઓ અમદાવાદની પરેશ કપડવંજમાં ટ્રેડીંગ કોર્પોરેશન નામની પેઢી પાસેથી Euphoria Pharmaceuticals, Mumbai દ્વારા ઉત્પાદિત ENGE PLEX (વિટામિન B-Complex) દવા ૪.૫ લીટરના કન્ટેનરમાં ખરીદતા હતા. ત્યારબાદ આ દવાને પોતાના દવાખાનામાં જ ૧૦૦ મિ.લી.ની નાની બોટલોમાં રીપેક કરી, પોતાનું બ્રાન્ડેડ લેબલ લગાવી દર્દીઓને બોટલ દીઠ રૂ.૮૦ના ભાવે બિનઅધિકૃત રીતે વેચતા હતા.

દરોડા દરમિયાન સામે આવ્યું છે કે, આ પ્રવાહી દવાના ઉત્પાદન માટે જરૂરી ઉત્પાદન પરવાનો કે પ્રોડક્ટ પરમિશન ઉપલબ્ધ નહોતી.

આ સિવાય નિયમ મુજબ જાળવવાના થતા બેચ મેન્યુફેક્ચરિંગ રેકોર્ડ, સ્ટોક રજિસ્ટર કે વેચાણ બિલ/કેશમેમો જેવા કોઈ પણ દસ્તાવેજો સ્થળ પર રાખવામાં આવતા નહોતા. બોટલ પર દવાનું નામ, ઉત્પાદકનું સરનામું, કમ્પોઝિશન, બેચ નંબર, ઉત્પાદન અને એક્સપાયરી ડેટ કે લાયસન્સ નંબર જેવી કોઈપણ કાયદાકીય વિગતો દર્શાવવામાં આવી નહોતી.

તપાસ ટીમે સ્થળ પરથી શંકાસ્પદ દવાની બોટલોના સેમ્પલ લઈ પૃથક્કરણ અર્થે સરકારી લેબોરેટરીમાં મોકલી આપ્યા છે. લેબોરેટરીના ટેસ્ટ રિપોર્ટ આવ્યા બાદ ડ્રગ્સ એન્ડ કોસ્મેટિક્સ એક્ટ, ૧૯૪૦ તથા ડ્રગ્સ એન્ડ કોસ્મેટિક્સ રૂલ્સ, ૧૯૪૫ની કડક જોગવાઈઓ હેઠળ સંચાલકો સામે ગુનો દાખલ કરી કાયદાકીય કાર્યવાહી હાથ ધરી છે.ખોરાક અને ઔષધ નિયમન તંત્ર(FDCA) દ્વારા નાગરિકોને જાહેર હિતમાં અપીલ કરવામાં આવી છે કે, નિષ્ણાત પિડિયાટ્રિશિયનની સલાહ વગર ૬ માસથી નાના બાળકોને માતાના દૂધ સિવાય ઉપરનો કોઈપણ ખોરાક, ઘૂંટી, દવા કે પ્રવાહી આપવું બાળકના સ્વાસ્થ્ય માટે અત્યંત જોખમી સાબિત થઈ શકે છે. નાગરિકોને માત્ર પ્રમાણિત અને રજિસ્ટર્ડ મેડિકલ પ્રેક્ટિશનરની સલાહ મુજબ જ દવાઓનો ઉપયોગ કરવા અનુરોધ કરાયો છે.

૩. ૫.૬૪ લાખનો મુદ્દામાલ જપ્ત કરાયો PCBએ ઘરમાં ચાલતા જુગારધામ પર રેડ કરી ૭ જુગારીઓ પકડ્યા

● અમદાવાદ, તા.૯

અમદાવાદના ચાંદખેડામાં સ્થાનિક પોલીસની રહેમનજર હેઠળ ધમધમતા એક મોટા જુગારધામ પર PCBએ રેડ પાડી છે. રહેણાંક વિસ્તારમાં સ્થાનિક પોલીસકર્મીઓના કથિત પ્રોટેક્શનથી ચાલતા આ જુગારના અડ્ડાનો પર્દાફાશ થયો છે. દરોડા દરમિયાન ૭ આરોપીઓ રંગેહાથ ઝડપાઈ ગયા છે અને રૂપિયા ૫.૬૪ લાખનો મુદ્દામાલ જપ્ત કરવામાં આવ્યો છે, જેના પગલે ચાંદખેડા પોલીસની કામગીરી અને મિલીભગત સામે ગંભીર સવાલો ઊભા થયા છે. ચાંદખેડાના ખોડિયાર નગર હાઉસિંગ બોર્ડ ખાતે આવેલા મકાન નંબર ૮૮૨/૧૩૩ના પહેલા માળે વિક્રમસિંહ ઉર્ફે વિપુલ ઝાલા દ્વારા આ જુગારધામ ચલાવવામાં આવી રહ્યું હતું. સ્થાનિક ચર્ચા મુજબ, જુગારના દાવમાંથી એકત્ર થતી રકમમાંથી અલગ-અલગ પોલીસકર્મીઓને હપ્તા/ભરણ પહોંચાડવામાં આવતું હતું. ૮ ઓગસ્ટના રોજ પીસીબીએ અચાનક પાડેલા દરોડામાં દાવ પરથી રોકડા ૨,૬૭,૩૦૦, ૮ મોબાઈલ ફોન, ૩ ટુ-વ્હીલર તેમજ ગંજીપાના, લાઈટબિલ અને ગોદડી સહિત કુલ ૫,૬૪,૩૦૦ રૂપિયાનો મુદ્દામાલ જપ્ત કર્યો છે.

આ રેડ દરમિયાન પીસીબીએ મકાનમાલિક વિક્રમસિંહ ઉર્ફે વિપુલ ઝાલા (ઉ.વ. ૪૩) સહિત સાત આરોપીઓની ધરપકડ કરી છે. પકડાયેલા અન્ય આરોપીઓમાં ગાયત્રી નગરના મિતુલ ઉર્ફે મોન્ટુ ગોહિલ (ઉ.વ. ૨૮), પ્રશાંત ઉર્ફે પિન્ટુ અગ્રવાલ (ઉ.વ. ૩૦) અને મયુર ઉર્ફે ચકો ગોહિલ (ઉ.વ. ૨૧), શુભ લક્ષ્મીનગરના મનીષકુમાર દલવાડી (ઉ.વ. ૨૯), કળશ સ્ક્વેર માનસરોવર રોડના ધીરજ રોય (ઉ.વ. ૪૫) અને વિવેકાનંદ નગરના હિતેશ ત્રિવેદી (ઉ.વ. ૩૮)નો સમાવેશ થાય છે. આ તમામ સામે ગુનો નોંધીને કાયદેસરની કાર્યવાહી હાથ ધરવામાં આવી છે. રહેણાંક વિસ્તારના એક મકાનમાં આટલા મોટા પાયે જુગારધામ ધમધમતું હોય, તો સ્થાનિક પોલીસને કે તેના બીટ ઈન્ચાર્જને આ અંગે જાણ કેમ ન થઈ? જુગારના દાવની રકમમાંથી અલગ-અલગ પોલીસકર્મીઓને નિયમિત હપ્તા/ભરણ પહોંચાડવાની ચર્ચાઓ જો સાચી હોય, તો ખાખી વર્દીની છબી ખરડાવા બદલ જવાબદારો સામે શું પગલાં લેવાશે? બીજી તરફ મહત્વનો પ્રશ્ન એ પણ ઊભો થાય છે કે સ્થાનિક પોલીસ જે અડ્ડાઓ નથી જોઈ શકતી, ત્યાં ઝમ કે અન્ય ઉચ્ચ એજન્સીઓએ અચાનક દરોડો પાડી પર્દાફાશ કરવો પડે છે. આ સ્થાનિક પોલીસની ચોખ્ખી નિષ્ફળતા અને જુગારધામને કથિત રીતે છાવરવાની નીતિ સ્પષ્ટ કરે છે તેમ છતાં કાર્યવાહીનો દાયરો દર વખતની જેમ સીમિત રાખવામાં કેમ આવે છે?

રેડ બાદ માત્ર આરોપીઓ પર કાર્યવાહી થાય છે, પરંતુ જેમના વિસ્તારમાં આ ગેરકાયદે પ્રવૃત્તિ ફાલી-ફૂલી, તેવા જવાબદાર સ્થાનિક અધિકારીઓ કે કર્મચારીઓ સામે આંતરિક તપાસ કરીને કડક સજા કરવામાં આવશે કે કેમ તે પણ મોટો સવાલ છે?

પેકેટ મેળવનારા પોરબંદરના સપ્લાયરનું નામ ખુલ્યું

દ્વારકા: રાવલ ગામમાંથી અઢી લાખના ચરસ સાથે યુવક ઝડપાયો

● દેવભૂમિ દ્વારકા, તા.૯

દેવભૂમિ દ્વારકા જિલ્લા એસ.ઓ.જી. (SOG) પોલીસે કલ્યાણપુર તાલુકાના રાવલ ગામે દરોડો પાડીને એક યુવકને લાખો રૂપિયાની કિંમતના ચરસના જથ્થા સાથે ઝડપી પાડ્યો છે. પોલીસે આરોપીના રહેણાંક મકાનમાંથી ૨.૫૯ લાખ રૂપિયાની કિંમતનું ૧.૩૬ કિલોગ્રામ ચરસ કબજે કરીને વધુ કાયદાકીય કાર્યવાહી હાથ ધરી છે.

મળતી માહિતી અનુસાર, એસ.ઓ.જી. પોલીસ ટીમ પેટ્રોલિંગમાં હતી, આ દરમિયાન મળેલી ચોક્કસ બાતમીના આધારે રાવલ ગામના હનુમાનધાર વિસ્તારમાં રહેતા ૨૭ વર્ષીય રામ ગામીના મકાનમાં દરોડો પાડ્યો હતો. તપાસ દરમિયાન તેના ઘરમાં આવેલી સેટીના ખાનામાંથી ૧.૩૬ કિલોગ્રામ ચરસનું પેકેટ મળી આવ્યું હતું. પોલીસે ચરસનો જથ્થો કબજે કરી આરોપી રામ ગામીની અટકાયત કરી હતી.

પોલીસની કડક પૂછપરછમાં આરોપી રામ ગામીએ ચોંકાવનારી કબૂલાત કરી હતી. તેણે જણાવ્યું હતું કે, પોરબંદરના મિયાણી ગામના તેના મિત્ર કરશન વાઘેલાને દરિયાકાંઠા વિસ્તારમાંથી ચરસનું આ પેકેટ મળી આવ્યું હતું. કરશને તેને સસ્તા ભાવે પેકેટ આપી દેવાની વાત કરતાં, આશરે ચારેક મહિના પહેલાં રામે તેની પાસેથી માત્ર ૧૦ હજાર રૂપિયામાં આ ચરસ ખરીદ્યું હતું. રામ ગામીએ આ ચરસ વેચીને વધુ નફો કમાવવાનો પ્લાન બનાવ્યો હતો. તેણે આ પેકેટ પોતાના ઘરે છુપાવી રાખ્યું હતું અને વેચવાનો પ્રયાસ કરતો હતો, પરંતુ લાંબા સમયથી તેને કોઈ ગ્રાહક મળી રહ્યો નહોતો.

આ અંગે એસ.ઓ.જી. પોલીસે મુખ્ય આરોપી રામ ગામીની અટકાયત કરી છે. જ્યારે ચરસનો જથ્થો પૂરો પાડનાર પોરબંદરના કરશન વાઘેલા તેમજ આ પ્રકરણમાં સંડોવાયેલા અન્ય શખસો સામે કલ્યાણપુર પોલીસ સ્ટેશનમાં એન.ડી.પી.એસ. (NDPS) એક્ટ હેઠળ ગુનો નોંધીને વધુ તપાસ હાથ ધરી છે.

ખેડૂતોની આકાશ તરફ મીંટ મંડાઈ

મેઘરાજાએ વિરામ લેતાં ખેડૂતો-શહેરીજનોમાં વ્યાપક ચિંતા

● જામનગર, તા.૯

જામનગર શહેર અને જિલ્લામાં છેલ્લા એક સપ્તાહથી મેઘરાજાએ સંપૂર્ણપણે વિરામ લીધો છે અને વરસાદના અભાવે ખેડૂતો તેમજ શહેરીજનોમાં ચિંતાનું વાતાવરણ જોવા મળી રહ્યું છે. છેલ્લા કેટલાક દિવસોથી સૂર્યદેવતા અને વાદળો વચ્ચે સંતાકૂકડીનો ખેલ જોવા મળી રહ્યો છે, પરંતુ વાદળો ઘેરાયા બાદ પણ મેઘરાજા વરસતા ન હોવાથી લોકોમાં વરસાદની કાગડોળે રાહ જોવાઈ રહી છે.

દરમિયાન ગઈકાલે બપોર બાદ લાલપુર પંથકમાં અચાનક વરસાદી વાતાવરણ સર્જાયું હતું અને વરસાદની એન્ટ્રી થાય તેવા સંજોગો ઉભા થયા હતા. જોકે, ત્યારબાદ પવનને કારણે વાદળો વિખેરાઈ જતાં લાલપુરમાં પણ મેઘરાજાએ વરસ્યા વિના જ વિરામ લીધો હતો.

હવામાન વિભાગ દ્વારા શનિ-રવિ દરમિયાન વરસાદની આગાહી કરવામાં આવી હતી. જેના પગલે જામનગર જિલ્લામાં વરસાદની આશા બંધાઈ હતી, પરંતુ આગાહી વચ્ચે પણ જિલ્લામાં ક્યાંય નોંધપાત્ર વરસાદ પડ્યો નથી. પરિણામે વરસાદની રાહ જોઈ રહેલા ખેડૂતોની ચિંતા વધી રહી છે.

જિલ્લા પંચાયત આરોગ્ય શાખા તરફથી મળેલા જામનગર જિલ્લાના પી. એચ.સી. ખાતે નોંધાયેલા વરસાદના દૈનિક પત્રક તા. ૦૯/૦૮/૨૦૨૬ મુજબ છેલ્લા ૨૪ કલાક દરમિયાન જિલ્લાના તમામ નોંધાયેલા કેન્દ્રો પર શૂન્ય મી.મી. વરસાદ નોંધાયો છે. આમ, મોસમ દરમિયાન કેટલાક વિસ્તારોમાં નોંધપાત્ર વરસાદ થયો હોવા છતાં છેલ્લા એક સપ્તાહથી વરસાદે ખેંચતાં હવે ખેડૂતોની નજર ફરી એક વખત આકાશ તરફ મંડાઈ છે.

વાદળો ઘેરાય, પવન ફૂંકાય અને વરસાદના સંજોગો સર્જાય છતાં મેઘરાજા વરસતા ન હોવાથી લોકોમાં ચિંતા સાથે વરસાદની આતુરતાપૂર્વક રાહ જોવાઈ રહી છે.

જામનગર ખાતે નોંધાયેલા હવામાનના આંકડા મુજબ લઘુત્તમ તાપમાન ૨૬.૫ ડિગ્રી સેલ્સિયસ, મહત્તમ તાપમાન ૩૩ ડિગ્રી સેલ્સિયસ, ભેજનું પ્રમાણ ૮૨% અને પવનની ગતિ ૧૦.૭ કિ.મી. પ્રતિ કલાક નોંધાઈ છે.

તાંદલજામાં માથાભારે વ્યાજખોર દંપતીનો આતંક

3 લાખની સામે ૧૨ લાખ ચૂકવ્યા છતાં પણ ડ્રગ્સ કેસમાં ફસાવી- કાર ચઢાવવાની ધમકી

છાણી રોડના વ્યાજખોર સોહીલ સૈયદ અને તેની પત્ની તમન્ના વિરુધ્ધ મિકેનિકની ફરિયાદ

● વડોદરા, તા ૯

શહેરના તાંદલજા વિસ્તારમાં રહેતા અને ઓટો ગેરેજ ચલાવતા વેપારીએ તાંદલજાના વ્યાજખોર દંપતીને ઉધાર લીધેલા ૩ લાખની સામે ૧૨ લાખ રૂપિયા ચુકવવા છતાં દંપતીએ વેપારી પાસે વધુ નાણાંની માગણી કરીને તેને ડ્રગ્સ કેસમાં ફસાવી દેવાની તેમજ હેરિયર કાર ચઢાવીને મારી નાખવાની ધમકી આપતાં ગભરાયેલા વેપારીએ માથાભારે વ્યાજખોર દંપતી વિરુધ્ધ જેપીરોડ પોલીસ મથકમાં ફરિયાદ નોંધાવી હતી.

તાંદલજારોડ પર મહાબલીપુરમ સોસાયટીમાં રહેતા ૩૯ વર્ષીય આરીફ યાસીનભાઈ શેખ ન્યુ ઈન્ડિયા ઓટો ગેરેજ ચલાવે છે. ગત ગત મે ૨૦૨૪ માં આરીફ શેખને નાણાકીય જરૂરિયાત ઊભી થતાં તેમણે છાણીરોડ પર આવેલા એલેમ્બિક ફ્લેટસમાં રહેતાસોહીલ ઉર્ફે લંબુ સૈયદ પાસેથી માસિક ૨૨ ટકાના ઊંચા વ્યાજદરે રૂ. ૩,૦૦,૦૦૦ ધિરાણ પેટે લીધા હતા. આ રકમ પેટે તેમણે દર મહિને રૂ. ૬૬,૦૦૦ વ્યાજ ચૂકવવાનું નક્કી થયું હતું. આરીફે સમયાંતરે રોકડા તથા ઓનલાઈન માધ્યમથી વ્યાજ પેટે કટકે-કટકે આશરે રૂ. ૧૨ લાખ જેટલી માતબાર રકમ ચૂકવી આપી હતી. છતાં વ્યાજખોર સોહીલ અને તેની પત્ની તમન્નાએ વ્યાજની ઉઘરાણી ચાલુ જ રાખી હતી. વ્યાજખોર દંપતીએ અવારનવાર આરીફના ઘરે આવી ગાળાગાળી કરી ઘરનો સામાન તથા ફોન બળજબરીથી પડાવી લેવાની ધમકી આપતા હતા. એટલું જ નહીં, સોહીલની પત્ની તમન્ના સૈયદે સોશિયલ મીડિયા પર સક્રિય હોવાનો રોફ બતાવી ફરીયાદીને તેઓની હેરિયર કાર નીચે આરીફનું માથુ કચડી નાખી મારી નાખવાની ધમકીઓ આપી હતી.
